SUMMARY

Hello! I'm Saad Hassan .I am passionate about Web development and especially Web development front-end and back-end and master of Laravel framework. Web Developer with around 2.5 years of experience in software development Lifecycle (SDLC) including analysis, design, development, and testing, deployment. I am a quick learner and a team worker that gets the job done also a future React and Node Developer.

I got a bachelor's degree in BBAIT Information technology, it was a part of my life that I didn't learn a technical skill only. But also how do you take a look at the issues and solve them. But I realize this isn't where I want to be. That's takes about a year of my life.

Technology Brainz

June 2024 to Continue

— At TechnologyBrainz, I have gained extensive experience as a PHP Laravel Developer, where I have
been involved in the design and development of various web applications. My role has included working on projects that utilize different frameworks, including PHP Core, CodeIgniter, and Laravel. I have also gained hands-on experience with Shopify, enabling me to develop and integrate custom solutions within the platform. Additionally, I have engaged with multiple third-party APIs to enhance the functionality of the applications I work on.

- Project Done in Technology Braniz such as :
- Shopify: freestorebuilder.com
- ExtellManager (Rental Management)
- FPCommand (MorrisonBrothers)
- Coupon Hero
- Vid Checkout
- Wheelie Optin
- Shipping Hero
- Third-Party API Integration: Facebook, Instagram (Meta)
